no. 12 – The sustainability strategy guidelines	49
no. 13 – Activities of the Corporate Governance Committees	70
no. 14 – The architecture of the SCIGR	74
no. 15 – The key players of the SCIGR	75
no. 16 – The ERM Unit and the corporate focal points	79
no. 17 – The certified integrated management system	85
no. 18 – Stakeholders and their involvement	87
no. 19 – Stakeholder map	88
no. 20 – Overall opinion and on aspects of electricity service – sale and distribution of energy - 2022	101
no. 21 – Overall opinion and on aspects of the public lighting service in Rome and Formello - 2022	102
no. 22 – Overall opinion and on aspects of the water service – sale and distribution of water in Rome and Fiumicino - 2022	102
no. 23 – Overall opinion and on aspects of the water service – sale and distribution of water in Frosinone and its province - 2022	103
no. 24 – Overall opinion and on aspects of the water service – sale and distribution of water in Sarnese Vesuviano - 2022	103
no. 25 – Overall opinion and on aspects of the water service – sale and distribution of water in Territorial Conference no. 6 Ombrone - 2022	103
no. 26 – Overall opinion and on aspects of the water service – sale and distribution of water in Benevento and its province - 2022	103
no. 27 – Types of public lighting faults out of total reports received (2022)	111
no. 28 – Electricity price trend for a standard domestic customer (€ cent/kWh) (2021-2022)	127
no. 29 – Total telephone calls to Acea toll-free numbers (2021-2022)	133
no. 30 – Percentage breakdown of inbound calls to Acea toll-free numbers (2022)	133
no. 31 – Acea corporate website 2022: access methods	142
no. 32 – Value of ordered goods, services and works and percentage on total (2022)	149
no. 33 – Orders (goods, services, works) by business area (2021-2022)	150
no. 34 – Geographical distribution of the amounts for goods and services in Italy and abroad (2022)	150
no. 35 – Geographical distribution of the amounts of works in Italy (2022)	150
no. 36 - Certified management systems and policies of suppliers evaluated by Ecovadis (2022)	154
no. 37 – Composition of the staff: gender, age and category (2022)	158
no. 38 – Contract types and length of the employment relationship (2022)	158
no. 39 – Types of entries and age of the staff (2022)	158
no. 40 – Types of exits and age of the staff (2022)	159
no. 41 – The distribution of the staff from a gender perspective (2022)	159
no. 42 – Women in the corporate governance bodies (2020-2022)	159
no. 43 – Hours worked by the staff and absences (2022)	162
no. 44 – Women’s pay as a percentage of men’s pay by qualification and age group (2022)	163
no. 45 – Accidents and indices by gender and business area (2022)	167
no. 46 – Members that have used CRC services (2022)	178
no. 47 – Investment breakdown by macroarea (2021-2022)	188
no. 48 – Acea sites/plants analysed, with potential impacts on biodiversity and protected areas intersected	200
no. 49 – Number of species listed in the IUCN Red List with habitat in the protected areas intersected	201
no. 50 – Installed power of Companies included in the NFS divided by energy source (MW) (2022)	208
no. 51 – Electricity produced subdivided by primary energy source (TJ) (2022)	208
no. 52 – Incoming volumes of waste managed by type of plant/activity (t) (2022)	211
no. 53 – The water distribution network of the main Group Companies in Italy (2022)	215

no. 54 – Tests of drinking water, total and by Company (2022)	215
no. 55 – Water loss accounting model	218
no. 56 – Sewerage networks of the main Group Companies in Italy (2022)	220
no. 57 – Analytical checks on wastewater, total and by Company (2022)	221
no. 58 – Waste streams for the Water Segment Companies	232
no. 59 – Main waste streams in the Environment Segment (waste-to-energy and compost sites)	233
no. 60 – Waste streams in Areti	234

**TABLES**

no. 1 – List of the Acea “material topics” in order of significance and GRI “specific disclosures” related to topics of high significance	14
no. 2 – Companies included in the Parent Company’s full consolidation area (2022)	15
no. 3 – Scope of the Acea Group Consolidated Non-Financial Statement for 2022 (pursuant to Italian Legislative Decree no. 254/2016 and the GRI Standards)	16
no. 4 – Acea Group in numbers, 2022	20
no. 5 – The main economic and equity data of the Acea Group (2021-2022)	30
no. 6 - Percentage turnover of the Acea Group from products or services associated with Taxonomy-aligned economic activities - disclosure for 2022	37
no. 7 - Percentage CapEx of the Acea Group from products or services associated with Taxonomy-aligned economic activities - disclosure for 2022	39
no. 8 - Percentage OpEx of the Acea Group, considered pursuant to the Disclosures Delegated Act, from products or services associated with Taxonomy-aligned economic activities - disclosure for 2022	41
no. 9 -Taxonomy-eligible but not aligned nuclear and fossil gas related economic activities	43
no. 10 – Structure of the Board of Directors and Committees of Acea SpA (as at 31.12.2022)	71
no. 11 – Models and controls	75
no. 12 – Acea material topics, risks and management methods	80
no. 13 – Risks and opportunities related to climate change: CDP evidence	82
no. 14 – Certified management systems in the Acea Group (as at 31.12.2022)	86
no. 15 - Main impacts perceived by stakeholders, associated with 2022 material issues with high and medium significance	91
no. 16 – Economic value directly generated and distributed (2021-2022)	93
no. 17 – Breakdown of value generated by stakeholder (2021-2022)	93
no. 18 – Acea Group customers (energy and water sectors) (2020-2022)	99
no. 19 – Results of customer satisfactions surveys: sales and distribution of energy, public lighting service (2021-2022)	104
no. 20 – Results of customer satisfactions surveys: water service (2021-2022)	105
no. 21 – Main interventions for the management and development of electricity grids and substations (2022)	108
no. 22 – Public lighting in Rome in figures (2022)	109
no. 23 – Main interventions for improved efficiency, safety, repairs and maintenance (2022)	110
no. 24 – Public lighting fault recovery: penalties, standards and Acea performance (2021-2022)	110
no. 25 – Main specific and general levels of commercial quality – energy-distribution (2021-2022)	112
no. 26 – Main specific and general levels of commercial quality – energy sales (2021-2022)	113
no. 27 – Service continuity data – energy distribution (2020-2022)	114
no. 28 – Water mains areas 2022 (georeferenced data)	115
no. 29 – Main interventions on the drinking water and sewerage networks and controls on drinking water and wastewater (2022)	116
no. 30 – Number, type and duration of disruptions in the supply of water (2020-2022)	118
no. 31 – Main specific and general levels of contractual quality in the water segment (2021-2022) - Acea Ato 2	122
no. 32 – Main specific and general levels of contractual quality in the water segment (2021-2022) - Acea Ato 5	123
no. 33 – Main specific and general levels of contractual quality in the water segment (2021-2022) - Gori	124
no. 34 – Main specific and general levels of contractual quality in the water segment (2021-2022) – Gesesa	125
no. 35 – Main specific and general levels of contractual quality in the water segment (2021-2022) - AdF	126
no. 36 – Average water prices applied (2022)	128
no. 37 – Energy: toll-free number and branch performance (2021-2022)	135
no. 38 – Water: toll-free number and branch performance (2021-2022)	136
no. 39 – Procurement data (2021-2022)	150
no. 40 – Procurement nationwide (2021-2022)	151
no. 41 – Evolution of employees by macro-area (2020-2022)	157
no. 42 – General data on personnel (2020-2022)	160
no. 43 – Movements of personnel (2020-2022)	161
no. 44 – Age groups, employment contract length (2020-2022)	161
no. 45 – Hours worked, absences, remuneration and members of the supplemental pension fund (2020-2022)	163
no. 46 – Health and safety (2020-2022)	168

no. 47 – Training (2021-2022)	173
no. 48 – Performance of stock exchange indexes and Acea shares (2022)	179
no. 49 – 2022 Rating	180
no. 50 – The principal sources under protection	205
no. 51 – Installed power of the electric power stations of Acea Produzione	207
no. 52 – Electricity produced (by primary energy source) (2020-2022)	208
no. 53 – Number of plants and overhead and underground distribution lines (2020-2022)	209
no. 54 – San Vittore del Lazio waste-to-energy plant: operating data (2020-2022)	211
no. 55 – Terni waste-to-energy plant: operating data (2020-2022)	212
no. 56 – Analyses in Rome (2020-2022) and main quality parameters of the drinking water distributed in Lazio, in Campania and in Tuscany (2022)	216
no. 57 – Volumes of wastewater treated by Water Companies operating in Lazio, in Campania and in Tuscany (2020-2022) (Mm <sup>3</sup> )	219
no. 58 – Percentage coverage of the sewer and purification services over the total user accounts of the Water Companies in NFS (2020-2022)	220
no. 59 – Hydrographic basins affected by discharges of Companies within the scope of NFS	220
no. 60 – Output parameters of the main treatment plants managed by Acea Ato 2, Acea Ato 5, Gori, AdF and Gesesa (2022)	221
no. 61 – Type and consumption of materials by the main Group Companies (2020-2022)	222
no. 62 – Energy consumption by source (2020-2022)	223
no. 63 – Energy intensity indices (2020-2022)	224
no. 64 – Energy efficiency in Arete (2020-2022)	225
no. 65 – Water withdrawal and recovery (2020-2022)	226
no. 66 – Total atmospheric emissions of pollutants from the main Group plants (2020-2022)	227
no. 67 – Concentrations of atmospheric emissions generated by waste-to-energy plants (2020-2022)	228
no. 68 – CO <sub>2</sub> emission allowances as per the National Allocation Plan (NAP) and actual emissions by plant (2020-2022)	228
no. 69 – Environmental indicators: CO <sub>2</sub> emissions, greenhouse gas intensity indices (2020-2022)	229
no. 70 – Total waste produced (2020-2022)	231
no. 71 – Waste produced by Companies in the Water Segment (2020-2022)	232
no. 72 – Waste produced by Companies in the Environment Segment (2020-2022)	234
no. 73 – Waste produced by the Arete Company (2020-2022)	235
