No. 22 – Results of customer satisfactions surveys: sales and distribution of energy, public lighting service (2022-2023)	114
No. 23 – Results of customer satisfactions surveys: water service (2022-2023)	115
No. 24 – Main interventions for the management and development of electricity grids and substations (2023)	118
No. 25 – Public lighting in Rome in figures (2023)	119
No. 26 – Main efficiency, safety, repair and maintenance projects (2023)	120
No. 27 – Public lighting recovery: Acea penalties, standards and performance (2022-2023)	120
No. 28 – Main specific and general levels of commercial quality – energy distribution (2022-2023) (ARERA parameters and Areti performance – 2022: data submitted to ARERA; 2023: estimated data)	122
No. 29 – Main specific and general levels of commercial quality – energy sales (2022-2023) (ARERA parameters and Acea Energia performance – 2022 data submitted to ARERA, 2023 data not consolidated)	124
No. 30 – Service continuity data – energy distribution (2021-2023) (ARERA parameters and Areti performance – 2021-2022: data certified by ARERA; 2023: provisional data)	124
No. 31 – Water network areas (2023)	126
No. 32 – Main interventions on the drinking water and sewerage networks and controls on drinking water and wastewater (2023)	127
No. 33 – Number, type and duration of disruptions in the supply of water (2021-2023)	129
No. 34 – The main specific and general levels of contractual quality in the water sector (2022-2023) – Acea Ato 2 (ARERA parameters, improvement standards and Acea Ato 2 performance – 2022 data are consolidated, 2023 data are not consolidated)	133
No. 35 – The main specific and general levels of contractual quality in the water sector (2022-2023) – Acea Ato 5 (ARERA parameters, improvement standards from the Service Charter, and Acea Ato 5 performance – 2022 data are consolidated, 2023 data are not consolidated)	134
No. 36 – The main specific and general levels of contractual quality in the water sector (2022-2023) – Gori (ARERA parameters and Gori performance - 2022 data are consolidated, 2023 data are not consolidated)	135

No. 37 – Main specific and general levels of contractual quality in the water sector (2022-2023) – Gesesa (ARERA parameters and Gesesa performance – 2022 data are consolidated, 2023 data are not consolidated)	136
No. 38 – The main specific and general levels of contractual quality in the water sector (2022-2023) – AdF (ARERA parameters, improvement standards from the Service Charter, and AdF performance – 2022 data are consolidated, 2023 data are not consolidated)	137
No. 39 – Average water prices applied (2023)	138
No. 40 – Energy: performance of toll-free numbers and branches (2022-2023) (*)	145
No. 41 – Water: performance of toll-free numbers and branches (2022-2023) (*)	146
No. 42 – Procurement data (2022-2023)	159
No. 43 – Procurement nationwide (2022-2023)	159
No. 44 – Evolution of employees by macro-area (2021-2023)	165
No. 45 – General data on personnel (2021-2023)	168
No. 46 – Movements of personnel (2021-2023)	169
No. 47 – Age groups, employment contract length (2021-2023)	169
No. 48 – Hours worked, absences, remuneration and members of the supplemental pension fund (2021-2023)	171
No. 49 – Health and safety (2021-2023)	176
No. 50 – Training (2022-2023)	181
No. 51 – Performance of stock exchange indexes and Acea shares (2023)	187
No. 52 – 2023 rating	188
No. 53 – The principal sources under protection	211
No. 54 – Installed power of the electric power stations of Acea Produzione	214
No. 55 – Electricity produced (by primary energy source) (2021-2023)	215
No. 56 – Number of overhead and underground distribution lines and plants (2021-2023)	216
No. 57 – The San Vittore del Lazio waste-to-energy plant: operating data (2021-2023)	219
No. 58 – Terni waste-to-energy plant: operating data (2021-2023)	220
No. 59 – Analytical determinations in Rome (2021-2023) and main quality parameters of the drinking water distributed in Lazio, in Campania and in Tuscany (2023)	224
No. 60 – Volumes of wastewater treated by Water Companies operating in Lazio, in Campania and in Tuscany (2021-2023) (mm ³)	227
No. 61 – Percentage coverage of the sewer and purification services for total user accounts of the Water Companies in the NFS (2021-2023)	227
No. 62 – Hydrographic basins affected by discharges of Companies within the scope of NFS	228
No. 63 – Output parameters of the main treatment plants managed by Acea Ato 2, Acea Ato 5, Gori, AdF And Gesesa (2023)	229
No. 64 – Type and consumption of materials by the main Group Companies (2021-2023)	230
No. 65 – Energy consumption by source (2021-2023) (*)	230
No. 66 – Energy intensity indices (2021-2023)	231
No. 67 – Water withdrawal and recovery (2021-2023)	234
No. 68 – Total atmospheric emissions of pollutants from the main Group plants (2021-2023)	235
No. 69 – Concentrations of atmospheric emissions generated by waste-to-energy plants (2021-2023)	236
No. 70 – CO ₂ emission allowances as per the National Allocation Plan (NAP) and actual emissions by plant (2021-2023)	236
No. 71 – Environmental indicators: CO ₂ emissions, greenhouse gas intensity indices (2021-2023)	238
No. 72 – Total waste produced (2021-2023)	239
No. 73 – Waste produced by Water Business companies (2021-2023)	240
No. 74 – Waste produced by Environment Business companies (2021-2023)	242
No. 75 – Waste produced by the Areti Company (2021-2023)	243
